HYDROFIX

PRODUCT DESCRIPTION

Hydrofix is used as a pattern layer on surfaces like concrete, bricks, plaster, cements... inside or outside, before applying an aqueous system (for exemple, TOPTX)
Hydrofix is suitable for patterns on existing isolating frontages with polysterene.
Hydrofix strenghtens dead plaster making it harder and easier to sand.

COMPOSITION

Acrylic resins in aqueous dispersion.

PROPERTIES

Output : 10 m² / liter

APPLICATION

Hydrofix is ready to use. Apply with brush or spraygun.

CLEANING

With water

Our information on the technical product is used only as assistance to professional workers. During the implementation of our products, we always advise to start with a test on a small area.
